To Whom It May Concern:

In November 2018, the Highland Park Middle School and the Reformed Church of Highland Park partnered to collect items for Teracycle. Since that time, we have had bins for the collection of snack bags in both the cafeteria and teachers' lounge, along with flyers explaining which items can be recycled. Collected items are counted and delivered to the church monthly by the school's Environmental Club. The church ships items collected on site along with those brought from the school. The collection is ongoing and will continue into the 2019-2020 school year.

Sincerely

Jennifer Osemwegie
