Dear staff and management team,

I am a student at Highland Park Middle School, last year I was part of a class called Project-Based-Learning, or PBL. That was the very first year the elective had been put into action. Our class was put together to keep us bettering the world we want to grow up in. The whole class picked something they wanted to do and presented, we took a vote and the winning issue was mental health. We each researched a subtopic that interested us under the umbrella topic of mental health. Some of us formed a group to paint a mural about mental health in our halls. I joined a group that was trying to put washing machines and dryers in our school.

Some class mates decided they wanted a washing machine and dryer in our school for kids who do not have the means necessary to wear clean clothes to school. Our class held an event that raised \$550 for a washing machine and dryer. We have not been able to purchase one yet because of venting and other supplies needed to maintain it. I am representing our school when I ask that you please make up the difference for our school by donating money or donating the washing machine and dryer. Our school would greatly appreciate any donation that you can make.
