Green Team Members:

Thank you for the planning of or participation in yesterday's Professional Development experience. Kudos to the team. We are now faced with exciting goals over the next few months:

1. Preparation for the Greenhouse
2. Revisiting our Gardens and addressing maintenance and accessibility issues
3. Developing a mission statement for our team
4. Drafting our Green team's priority goals
5. Communicating our successes and goals with the staff
6. Communicating our successes and goals with the community/(Displaying Bronze Level Signage)
7. Expanding the Green Team
8. Partnering with community organizations and businesses
9. Exploring and joining Eco -Schools
10. Attaining Silver status with Sustainable Jersey Schools

Please begin to jot down your ideas and thoughts towards each of these goals for next month's meeting (TBA).

Thank you all for a great day.

S. Nwanguma
