POP TAB PROGRAM

The Ronald McDonald House is a home away from home for families of infants and children who are receiving medical treatment for cancer and other serious illnesses at all the area medical facilities. It is open to families of those children who are hospitalized and/or receiving treatment as outpatients.

The cost per day is minimal to families and waived if unable to pay. This "Pop Tab" program is one of the on-going fundraising programs that help support the mission of being a home away from home for the families of children receiving medical treatment
