

Careers at ACUA

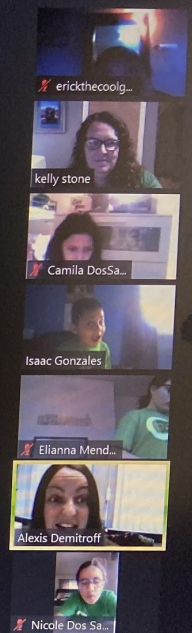

ACUA's Wastewater Treatment Facility

-ACUA processes about 29 million gallons of wastewater every day.

-There are workers onsite 24-hours each day monitoring the treatment process.

-Typically, ACUA is able to remove over 95 % of the contamination in the water – we do a great job!

ACUA

The Jersey Atlantic Wind Farm

- There are 5 wind turbines, that can each generate 1.5 mw.
- The wind farm has prevented 62,000 metric tons of CO2 from entering the atmosphere.
