"Together We Can, Juntos Nos Podemos, Juntos Podemos"

March 2022

To Whom It May Concern,

The Long Branch Public Schools value the inclusion of creativity and the arts and the positive impact it has on our students and their learning. We believe that they are important building blocks for developing well-rounded leaders who bring creative and innovative solutions to today's global challenges.

For that reason, we offer a variety of art disciplines and ensure that all of our learners have access to rigorous arts programs in our schools. From vocal and instrumental music to art, photography, graphic designs, and dance, we provide opportunities for every learner to engage in a robust arts program.

From our youngest learners in grades Kindergarten through Second, students participate in vocal music and art each week throughout the year. As they move up through the grade levels, they have the opportunity to join the instrumental music program in addition to the other two areas. Many of our students also participate in a creative dance program weekly as well.

Our Middle School provides a variety of course offerings including Visual Art, Vocal Music, Band, TV Film and Media, Music Technology, Digital Art, Photography, and Drama classes. At the High School, we expand on the aforementioned areas in the middle school with TV Studio classes, Chorus, Piano, Graphic Design, Dance, Music Technology, and Visual Art and Graphic Design.

Please do not hesitate to reach out with any additional questions to support all arts disciplines being offered for the Long Branch Public Schools.

Sincerely,

Francisco E. Rodriguez
Superintendent of Schools
