Sustainable Jersey for Schools

Re: George L. Catrambone Elementary School Radon Mitigation System

Please be advised that the George L. Catrambone Elementary School was built in 2014 by the New Jersey Schools Development Authority (SDA). At that time, the SDA determined that a Radon Mitigation System was necessary for the school. That system has remained intact and continues to be active since we occupied the school in September 2014.

If you have any further questions, please feel free to contact me. Thank you.

Very truly yours,

Ann C. Degnan, CEFM  
Assistant School Business Administrator for Facilities
